DESCRIPTION OF STRATEGY

February 2013

Spitfire is a value-oriented investor in publicly-traded, smaller capitalization companies. We invest in market share leading businesses which generate excess cash, possess substantial financial flexibility and demonstrate increasing intrinsic value. Our investments offer the potential for significant upside over a one to three year holding period while benefitting from a substantial margin of safety. Most of our targets are underfollowed by sell side analysts and institutional investors and are often attractive acquisition candidates. Since inception, thirteen companies, representing approximately 25% of our investments, have been acquired by strategic or financial buyers.

CURRENT MONTH PERFORMANCE

In February, The Spitfire Fund L.P. was up +1.6% (net), which compares with the Russell 2000 and S&P 500 which were up +1.1% and +1.4%, respectively. Year to date, the Fund is up +5.0%, versus the Russell 2000 and S&P 500 which are up +7.4% and +6.6%, respectively. Since inception, the Fund is up +88.6% (net), ahead of the Russell 2000 and S&P 500 which are up +18.1% and +13.7%, respectively. The portfolio generally performed well, with the majority of positions increasing by more than the market. Volatility, as measured by the VIX, remained subdued. As we come to the end of earnings season, we remain excited about our core positions and continue to research a number of new companies. We have plenty of dry powder to take advantage of market volatility, should it return.
